Cashiery

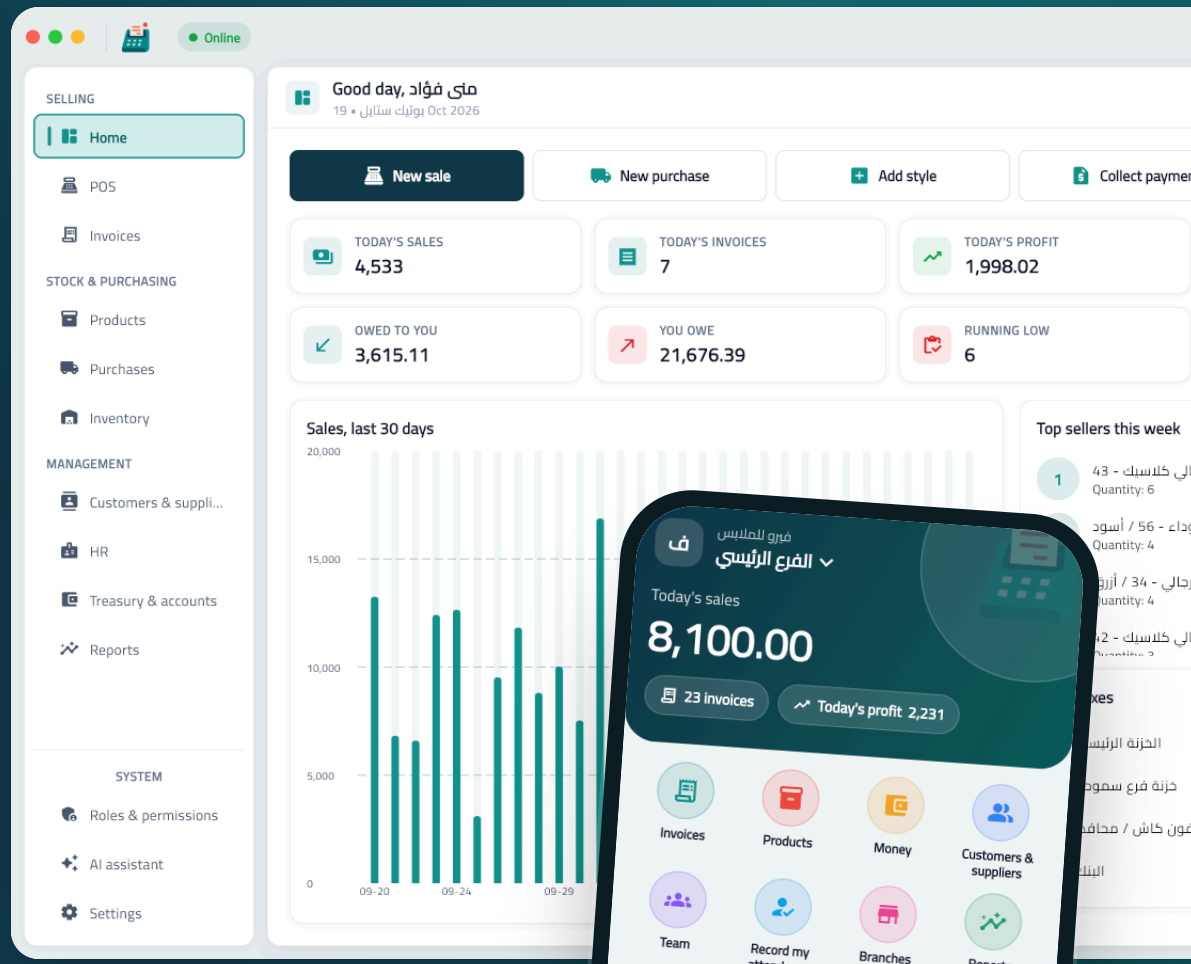

POS, inventory and accounting for shops

Your whole shop in one app even when the internet drops

Cashiery brings sales, stock, cash, staff and reports together. It works offline and syncs by itself, while you follow every branch from anywhere.

- Works offline
- Arabic & English
- Windows 10 & 11
- Mobile app

Start 14 days free

Everything you need

Six areas that cover your whole day

Fast cashier

Barcodes, colours and sizes, discounts, and cash, card or wallet payments.

Smart stock

Several warehouses, stock counts and alerts before items run out.

Customers & suppliers

Balances, statements and collections in seconds.

Cash & accounts

Cash boxes, bank, wallets and expenses, with double-entry for your accountant.

Staff & attendance

Attendance, payroll and permissions for every user.

Clear reports

Sales, profit and stock value for any period you choose.

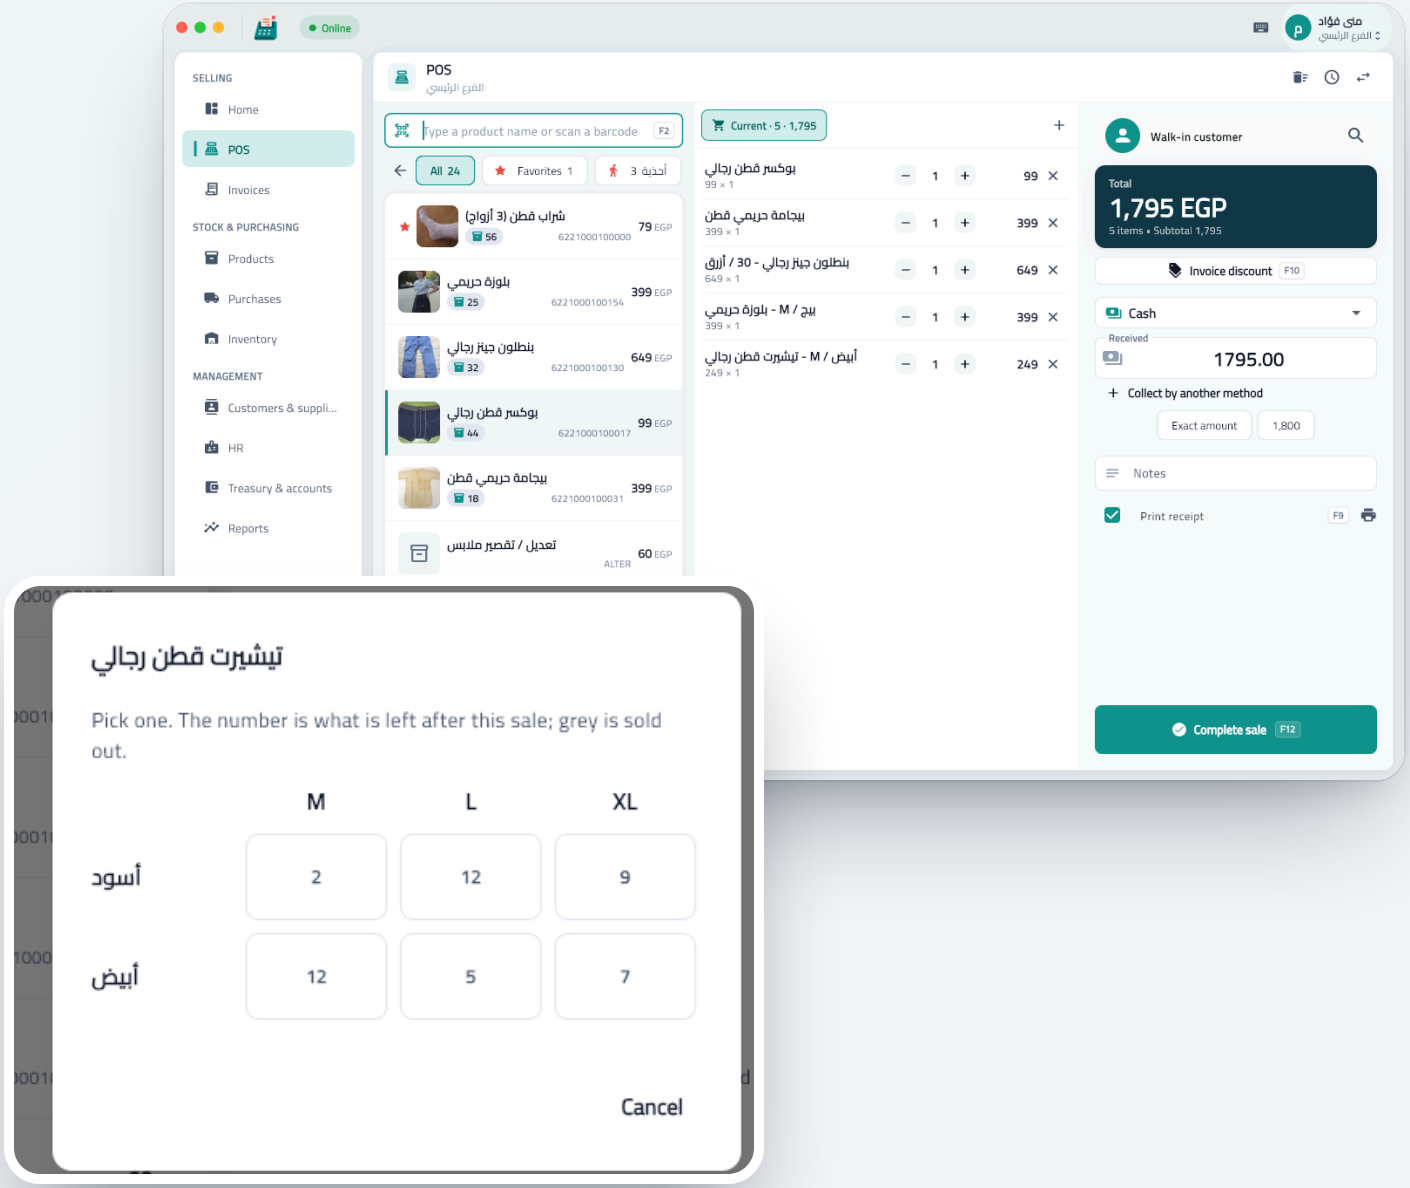

Windows 10 & 11 · Arabic · English · Works offline · Thermal printers & A4 · Barcodes & labels · Android app

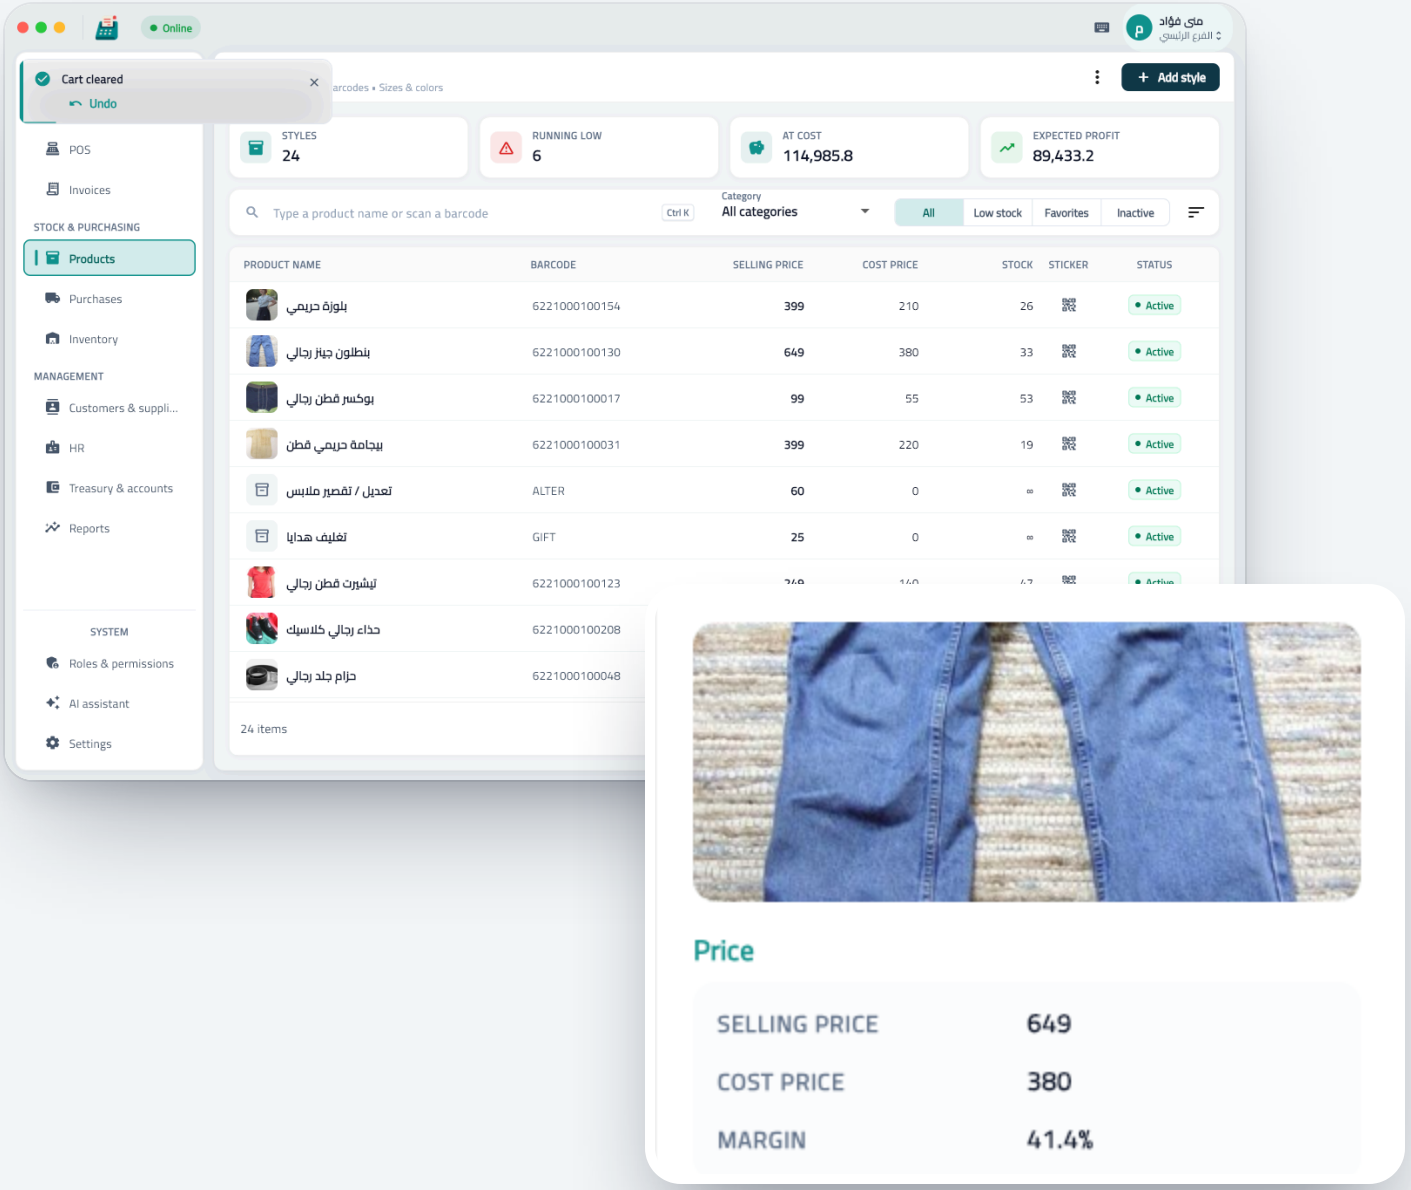

Cashier

A fast cashier that never stops

Start a sale in seconds, even for items with many colours and sizes.

- Scan a barcode or search by name
- Colours and sizes in one picker
- Cash, cards, wallets and payment methods you add
- Fully offline with automatic sync

Products & stock

Products and stock, under control

Every product with its price, margin and balance per size.

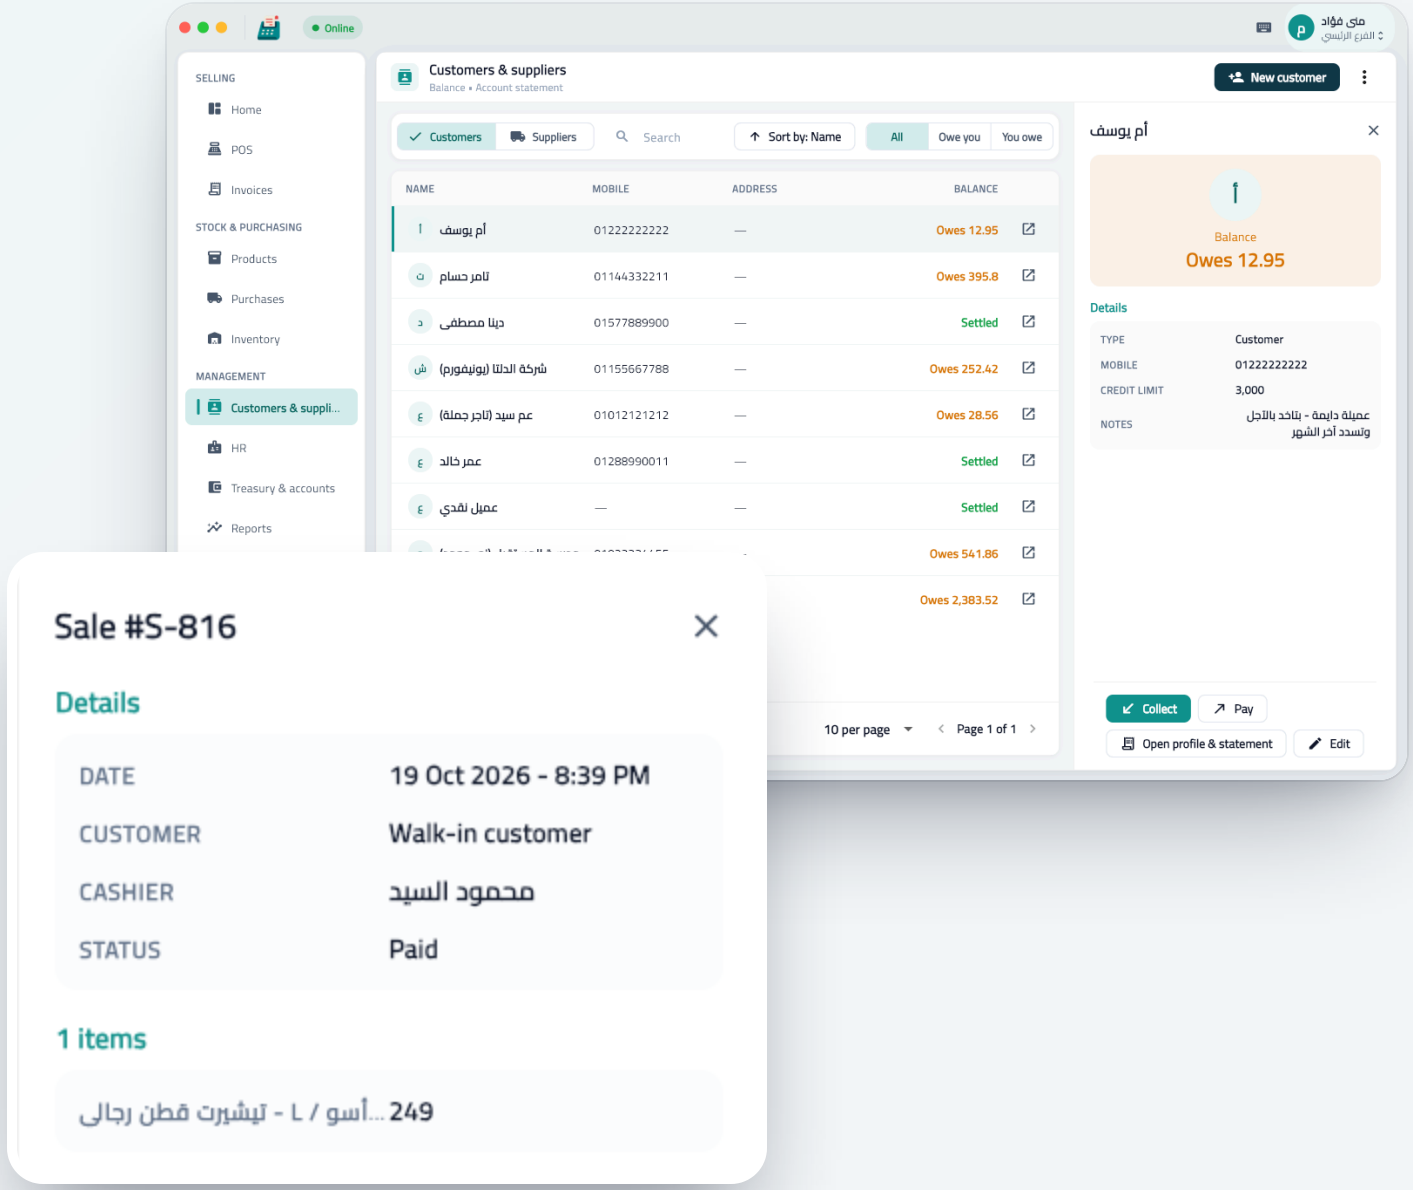

- Variants (size / colour) with their own price and quantity
- Several warehouses and transfers
- Stock counts and low-stock alerts
- Import products from Excel

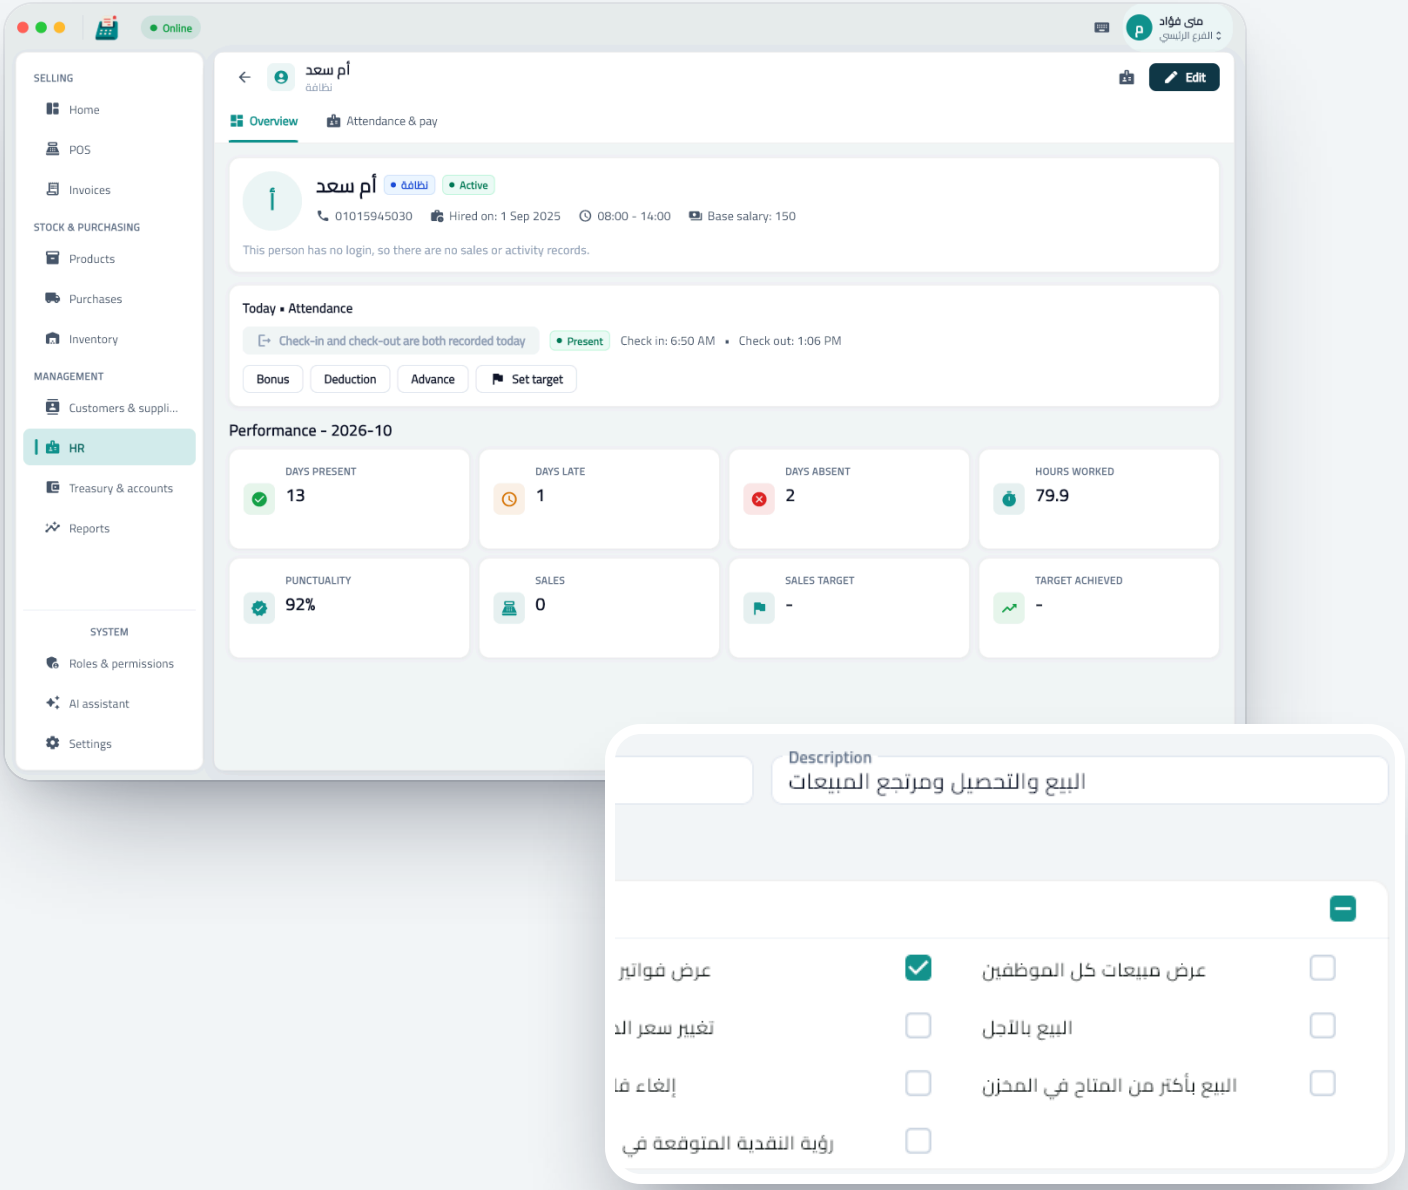

Customers & invoices

Customers and invoices, no notebooks

See who owes what, and print a statement in one click.

- A statement for every customer and supplier
- Credit sales and collection in seconds
- Invoices and returns from one screen
- Print or share an invoice in one click

Staff

Your team, with the right access

Track attendance and payroll, and let everyone see only what concerns them.

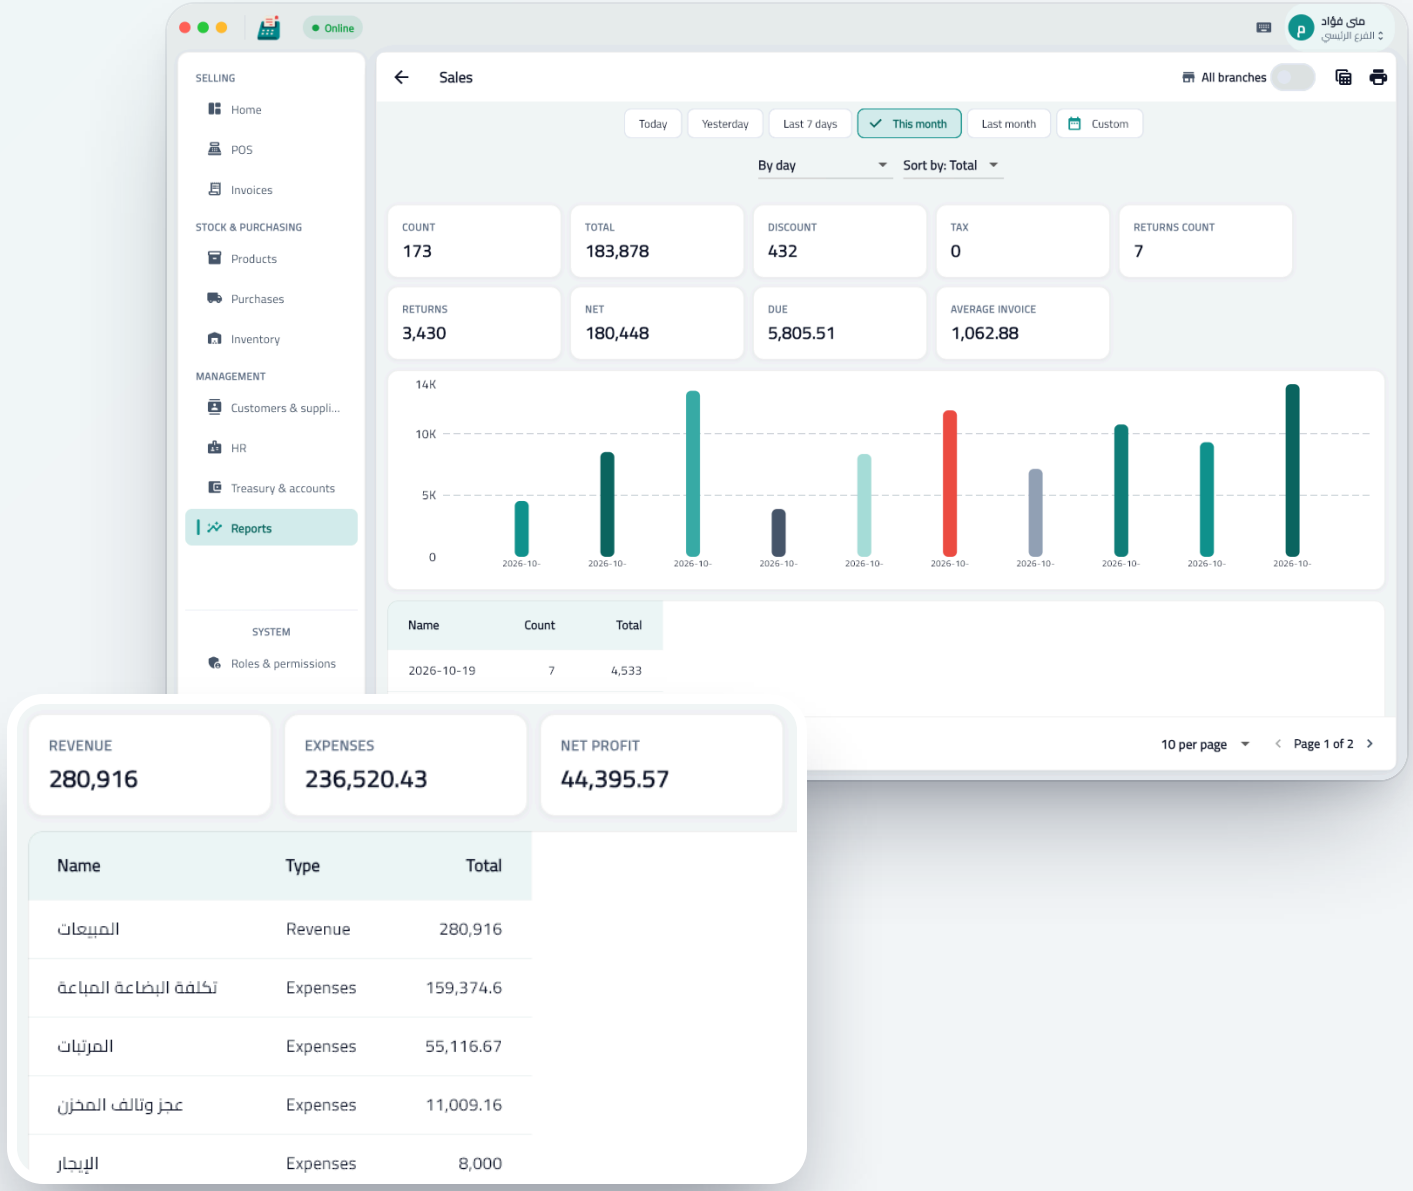

- Attendance, check-out and lateness
- Monthly payroll, bonuses and deductions
- Ready roles and detailed permissions
- A log of every important action

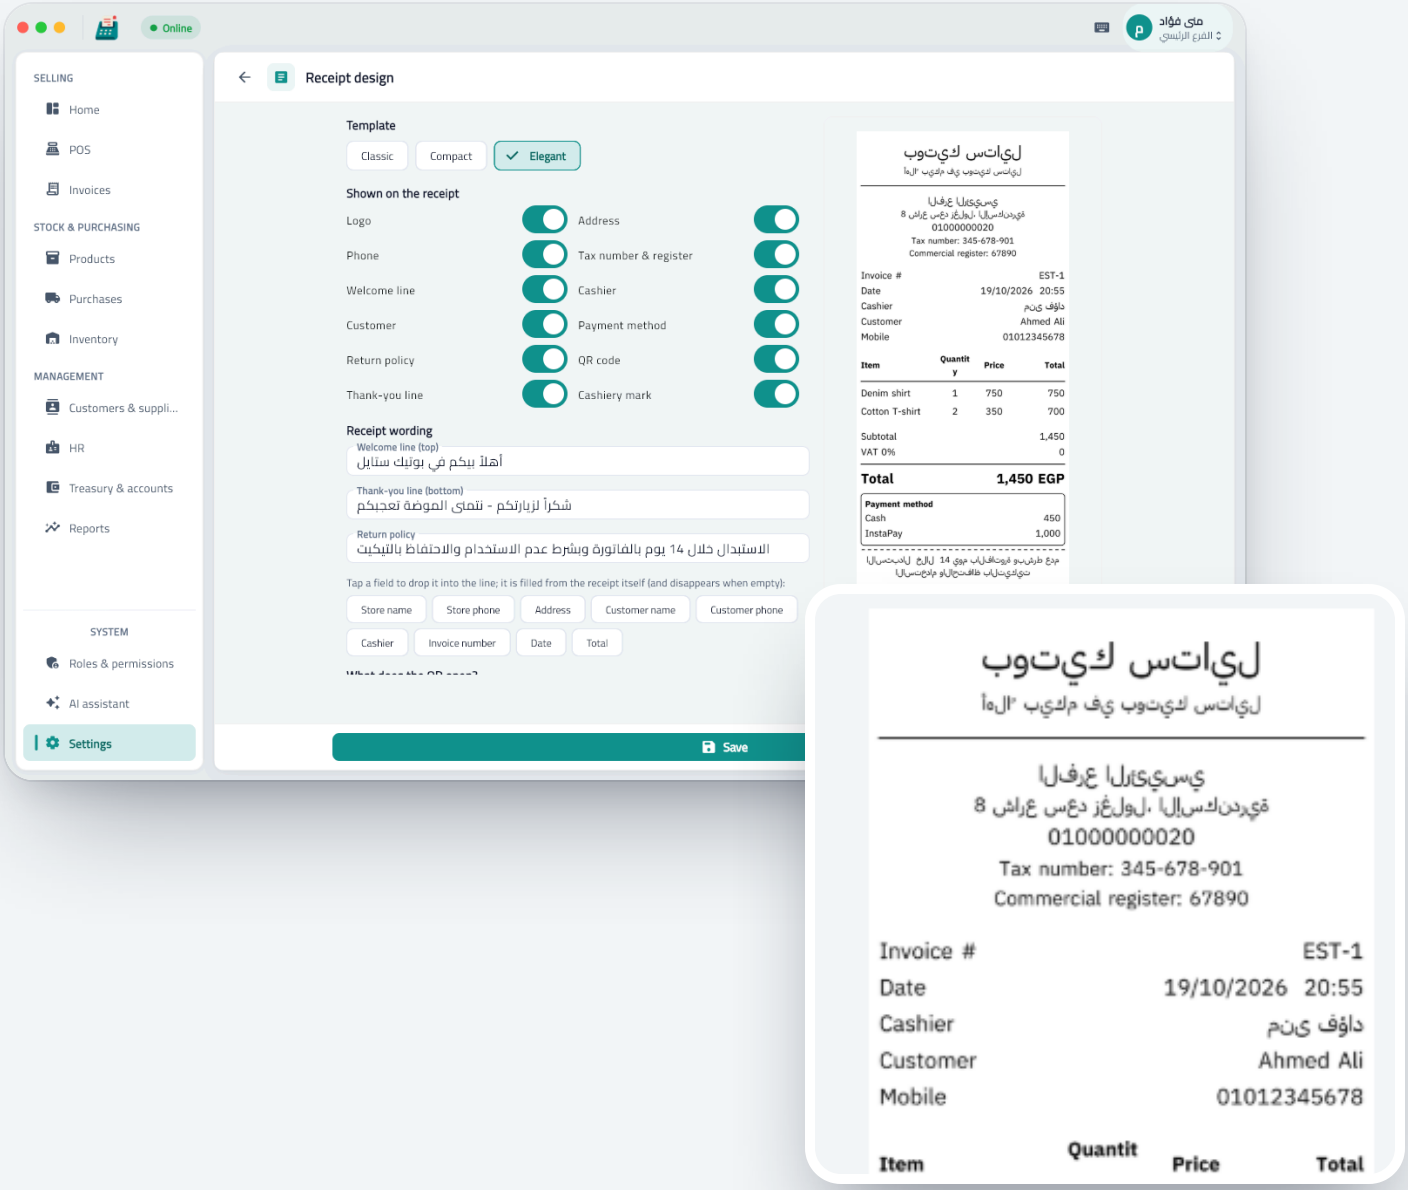

Reports & cash

Your money and numbers, clear

Ready-made reports, no counting by hand.

- Cash boxes, bank and wallets with balances
- Expenses, shifts and drawer counts
- Sales and profit reports for any period
- Stock value and slow movers

Printing

Receipts and barcode labels, your way

Design the receipt and see the preview before you print.

- 58 mm, 80 mm and A4 receipts with ready templates
- A live preview for every change
- Barcode labels in several sizes
- Direct printing to label printers

New in Cashiery

Tools for the owner, not just a till

Every branch at a glance

The sales of each branch side by side on one screen, and customer debts across all branches.

A price per branch

Set a selling price for one branch without touching the others.

AI assistant

Ask about your sales and stock in Arabic or English, in the Windows app.

Excel export

Export reports and statements to Excel from Windows and from your phone.

Pay from anywhere

Renew in the app or on the website payment page: transfer and upload the receipt.

Help setting up

Our team helps you set up your shop and add your products on WhatsApp.

Mobile app

Your shop in your pocket. Follow every branch from anywhere

It complements the Windows program: today's sales and profit, invoices, stock, cash in every box and your team's attendance.

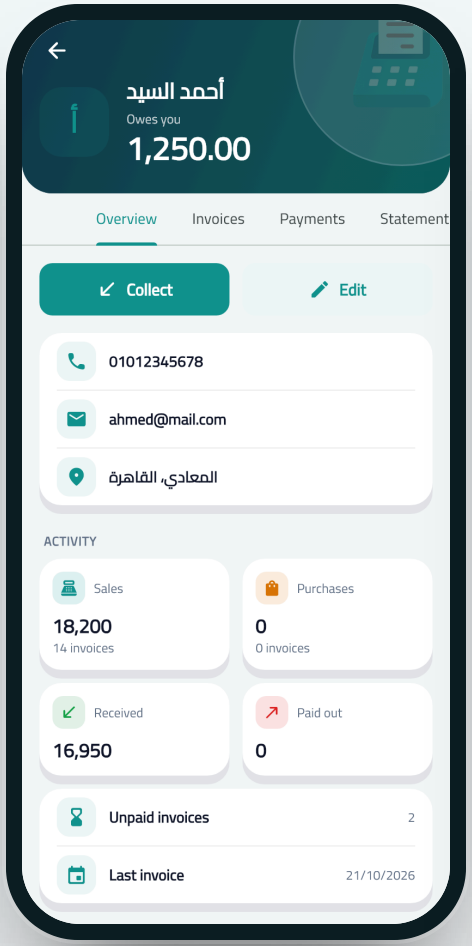

- Every branch's own numbers, switch with a tap
- Invoices, products and stock movement with analytics
- Customer statement as an A4 PDF
- Updates itself when a new version is out

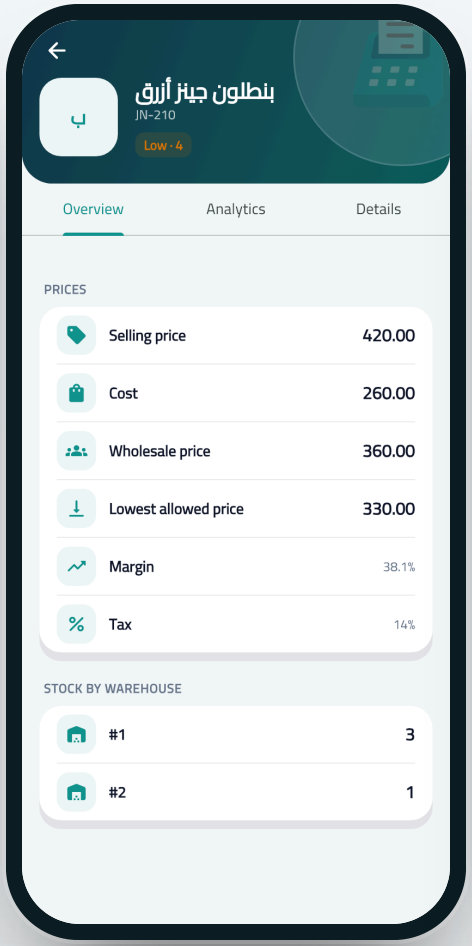

Everything you ask about daily, on your phone

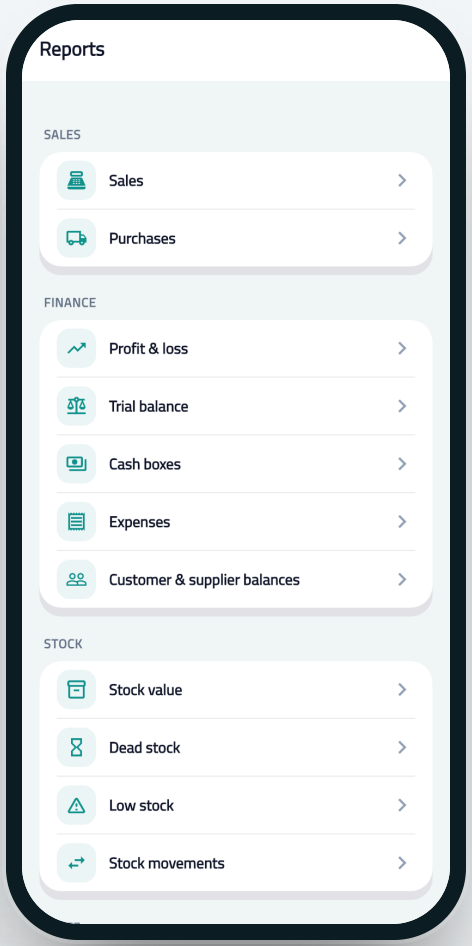

Team and attendance

Customer profile and statement

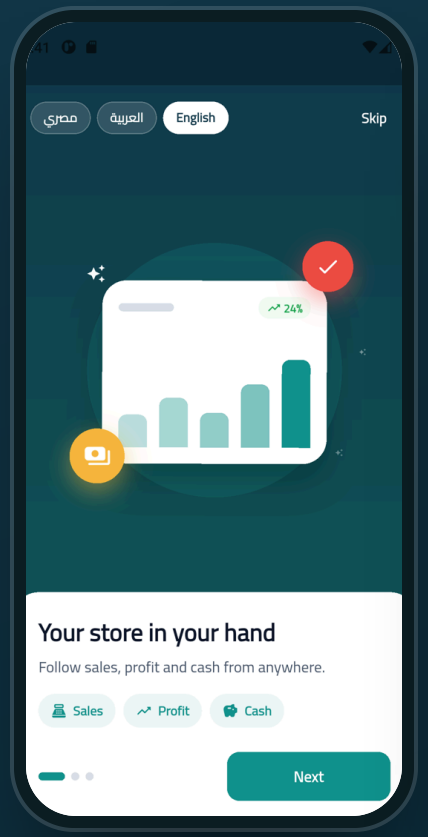

Product details and analytics
